THE NATIONAL ASSOCIATION OF  
MUSICIANS

THE NATIONAL ASSOCIATION OF MUSICIANS  
was organized in 1892 for the purpose of  
advancing the interests of the  
musicians of the United States  
and of securing for them the  
benefits of the laws enacted  
for the protection of the  
copyright in music. The  
association has since that time  
been active in the promotion  
of the interests of the  
musicians of the United States  
and has been successful in  
obtaining for them the  
benefits of the laws enacted  
for the protection of the

1. The first part of the paper is devoted to a general  
discussion of the problem. It is shown that the  
problem is of great importance and that it has  
not been completely solved. The author then  
presents a new method for solving the problem.

THE HISTORY OF THE UNITED STATES

1776-1783

The American Revolution was a struggle for independence from British rule. It began in 1775 and ended in 1783. The revolution was fought between the thirteen original colonies and the British Empire. The colonies won their independence and became the United States of America.

The revolution was a turning point in American history. It established the United States as a new nation and set the course for its future development. The revolution was a struggle for freedom and self-government.

1. The first part of the paper is devoted to a general discussion of the problem of the existence of solutions of the system of equations (1) for arbitrary values of the parameters  $\alpha$  and  $\beta$ . It is shown that the system has solutions for all values of the parameters  $\alpha$  and  $\beta$  if the function  $f(x)$  is continuous and has a bounded derivative. The second part of the paper is devoted to a detailed study of the properties of the solutions of the system of equations (1) for arbitrary values of the parameters  $\alpha$  and  $\beta$ . It is shown that the solutions of the system of equations (1) are unique and depend continuously on the parameters  $\alpha$  and  $\beta$ . The third part of the paper is devoted to a study of the asymptotic properties of the solutions of the system of equations (1) for arbitrary values of the parameters  $\alpha$  and  $\beta$ . It is shown that the solutions of the system of equations (1) have the asymptotic properties of the solutions of the system of equations (2) for arbitrary values of the parameters  $\alpha$  and  $\beta$ .
